

WetVac *WV570, WVD570, WV900, WVD900*

The mid range EcoWet 570 and 900 designs are classics in every respect both in design and manufacture.

EcoWets have now been raised to our full 38mm (1½") standard, providing performance enhancements allowing single motor models to perform to improved standards. Both models use complete Structofoam construction, an exceptionally tough compound that doesn't dent, scratch or deteriorate and yet it is lightweight and resists all standard cleaning chemicals.

WV570 (Single motor)
WVD570 (Dual motor)

WV900 (Single motor)
WVD900 (Dual motor)

Tip empty system

- Wet or Dry**
 Professional results in either mode, professional accessories provided for both wet and dry use.
- Structofoam Construction**
 Heavy duty Structofoam used in both head and body construction.
- Nucable System**
 Power cable can be replaced without the need for an electrical engineer.
