PANTHER PRESS

| Specifications | P10028 |
|-------------------------|-------------------|
| Pressure Force | 588kN |
| Pressure Max | 235bar |
| Cylinder Stroke | 400mm |
| Oil Delivery | 3.3/13.5l/min |
| Oil Tank Capacity | 30dm ³ |
| System Capacity | 8dm ³ |
| Press Speed | 2.2mm/sec |
| Cylinder Lowering Speed | 9.2mm/sec |
| Return Speed | 12.7mm/sec |
| Motor | 1.5kW |
| Voltage | 400V 3Ph |
| Frequency | 50/60Hz |
| RPM | 3000 |
| Insulation Protection | 54 |
| Weight | 685kg |
| Diameter Of Cylinder | 210mm |
| Diameter Of Piston Rod | 90mm |
| Diameter Of Piston Head | 100mm |

These workshop presses are extremely robust and built to last.

The casing is very stable. It is made of quality steel sections welded very carefully.

The hydraulic system is extremely precise, whether operated electrically or manually.

The height of the heavy work table can be adjusted easily and effortlessly using the hydraulic cylinder.

These workshop presses are excellent for general assembly and straightening work, but also for testing work-pieces or for pressing bearings in and out.

That's why they are a must for engineering workshops, repair firms and technical training institutions.

Features

- Pressure manometer
- Automatic piston return
- User manual
- M/H: motorised/hand operated
- 2: hydraulic unit with 2 speeds and pressure regulator
- Chrome piston with screw head
- Working width: 750 mm
- M/C: movable cylinder
