

PARKANSON AUSTRALIA

PK 410 SAM

FEATURES:

- ◆ Unique mitre cutting design which allows cuts from 0 - 45° by swivelling the head of the machine. The angle is set accurately with the aid of a graduated scale.
- ◆ Hydraulic vice clamping which saves the operator time and energy and increases blade life.
- ◆ Vice bed fitted with hardened and ground wear strips to maximise life and accuracy.
- ◆ The machine automatically raises to the top position at the completion of the cut.
- ◆ Heavy duty blade tension unit with indicator to alert operator of correct tension.
- ◆ Fitted with 27mm wide blade for cutting lager sections.

TECHNICAL DATA:

Cutting Capacity:	90° 270x410mm
	45° 220x250mm
Blade Size:	3560x27x0.9mm
Blade Speed:	35, 55, 75, 90mpm
Main Motor:	1.5kW
Working Height:	660mm
Weight:	750kg
Dimensions (LxWxH):	980x1800x1350mm

3565mm x 27mm x 0.9mm x TPI
