PipeMAB 200

BDS MASCHINEN
MADE IN GERMANY

The new PipeMAB magnetic core drilling machines from BDS Maschinen, Made in Germany. The patented pipe magnetic clamping system with two permanent magnets automatically adapts to the pipe diameter.

The swivel arrangement of the permanent magnets allows pivoting to conform to any pipe of 85 mm (3") diameter or larger, on straight surfaces as well as inside and outside of the curved surfaces.

STRONG GRIP

ON PIPES & CURVED SURFACES

Powerful magnetic adhesion force **up to max. 1020 kg**

(20 mm material thickness / S 275 JR)

Both permanent magnets can be activated with a short turn of the clamping lever. The long set-up surfaces provides optimum adhesion and safety. The pivoting movement of the magnets automatically positions the drilling unit in the central drilling position.

Result: Fast, accurate and safe drilling with the BDS PipeMAB series.
